

**BEFORE THE WEST VIRGINIA MEDICAL IMAGING AND
RADIATION THERAPY TECHNOLOGY BOARD OF EXAMINERS**

**WEST VIRGINIA MEDICAL IMAGING
AND RADIATION THERAPY
TECHNOLOGY BOARD OF EXAMINERS,**

Complainant,

v.

Case No. 09-FY-2019

LANI CRANE,

Respondent.

CONSENT AGREEMENT AND ORDER

Upon due investigation, the West Virginia Medical Imaging and Radiation Therapy Technology Board of Examiners (“Board”) determined there was probable cause to believe that Lani Crane (“Respondent”) exhibited unprofessional conduct in the practice of medical imaging and radiation therapy technology, in violation of the provisions of W. Va. Code §§ 30-23-1 *et seq.* and W. Va. Code R. §§ 18-1-1 *et seq.* Respondent was provided with written notice of the allegations against her pursuant to the rules of the Board and the laws of this State.

Now, in lieu of a hearing, the parties have reached an agreement for the resolution of this matter and the parties agree to entry of the following Order in disposition of this matter.

FINDINGS OF FACT

The Board hereby adopts the following findings of fact:

1. The Board is a regulatory board created for the purpose of regulating the practice of medical imaging and radiation therapy technology. W. Va. Code § 30-23-1 *et seq.*

2. In order to carry out its regulatory duties, the Board is empowered to suspend, revoke, or otherwise discipline an individual's license to practice medical imaging and radiation therapy technology. W. Va. Code § 30-23-24; W. Va. Code R. §§ 18-4-1 *et seq.*

3. Respondent is a licensee of the Board, holding License No. 1738, and is subject to the license requirements of the Board.

4. At all times relevant, Respondent was employed as a radiation therapy technologist at 21st Century Oncology in Princeton, West Virginia.

5. On December 6, 2018, Respondent renewed her license through the Board's website.

6. On December 11, 2018, the Board's Executive Director verified Respondent's continuing education with the American Registry of Radiologic Technologists ("ARRT") and discovered that Respondent had been reprimanded by ARRT.

7. In correspondence to the Board dated December 12, 2018, the ARRT explained that Respondent's "certification and registration was publicly reprimanded for unprofessional conduct involving misadministration of radiation."

8. On January 23, 2019, the Board issued a subpoena to ARRT and requested documents regarding its disciplinary action against Respondent.

9. On or about February 12, 2019, the Board received the requested documents from ARRT. Included with the documents was a letter from Respondent to ARRT describing the "misadministration of radiation" incident that occurred on August 27, 2018. Respondent states in that letter:

I was charting for a radiation therapy patient. Prior to treatment initiation I did not verify and compare patient information on the TomoTherapy Treatment Console to the Mosaic Electronic Medical Record. The treatment had been delivered as I was completing my charting and verifying the TomoTherapy and

Mosaic information. Upon comparison I realized that the dosimetry treatment plan had been interchanged on patients having the same last name. Immediately upon discovery I brought this to the attention of my co-workers. Who then informed the Radiation Oncologist.

10. Having reviewed the information received from ARRT, the Board voted to initiate a complaint against Respondent at its meeting on May 23, 2019. That complaint was mailed to Respondent on June 21, 2019.

11. Respondent requested and was granted an extension of time to respond to the complaint. In a letter from her attorney dated July 26, 2019, Respondent responded to the Board's complaint and provided additional factual information regarding the August 27, 2018 incident.

12. On August 15, 2019, Respondent attended an informal conference with the Board's Ethics Committee, together with her attorney and the Regional Leader and Medical Director of 21st Century Oncology. Respondent and the Medical Director further addressed the circumstances surrounding the August 27, 2018 incident and answered questions from the Board.

13. Upon recommendation of the Ethics Committee, the Board, at its meeting on August 22, 2019, voted to find probable cause for a violation of W. Va. Code § 30-23-24(a) and W. Va. Code R. §§ 18-5-4.1.7, 18-5-5.1.4, and 18-5-5.1.5.a-b.

CONCLUSIONS OF LAW

1. The Board has jurisdiction to take disciplinary action against Respondent.
2. Based upon the facts and matters set out in the above *Findings of Fact*, and pursuant to W. Va. Code § 30-23-24, the Board may revoke, suspend, or otherwise discipline the Respondent's license to practice medical imaging and radiation therapy technology.

3. Respondent's conduct described in the above *Findings of Fact* would, if proven, constitute violations of W. Va. Code § 30-23-24(a) and W. Va. Code R. §§ 18-5-4.1.7, 18-5-5.1.4, and 18-5-5.1.5.a-b. Such conduct is therefore grounds for disciplinary action

3. The Board is bound by agreement and law to report the results of all disciplinary actions, including the instant matter, on the Board's website, to the West Virginia Secretary of State's Office, and to the ARRT.
4. This document is a public record as defined in W. Va. Code § 29B-1-2(5).
